MEN'S MINISTRY LUNCHEON

APRIL 7TH
12:00 PM TO 2:00 PM

233 MCCLUER ROAD

March Health Tips

Floss every day. This may help keep your arteries healthy. A 2008 New York University study showed that daily flossing reduced the number of gum-disease-causing bacteria in the mouth. These bacteria are thought to enter the bloodstream and trigger inflammation in the arteries; a major risk factor for heart disease. Other research has shown that those who have high amounts of bacteria in their mouth are more likely to have thickening in their arteries, and other sign of heart disease.

WOW
